

Stationary Backstroke Start Wedge

The Stationary Backstroke Start Wedge allows swimmers to perfect their backstroke takeoffs at their local pool.

- Most cost effective Backstroke Wedge on the market, priced under \$200!
- Same non-slip wedge and straps as our top-of-the-line Backstroke Assist Device
- Can easily attach to nearly any existing starting block frame
- Includes stainless steel hardware to resist corrosion
- FINA, USA Swimming and NCAA compliant, when installed correctly

If you are a highly competitive swimming club or university looking for a way to perfect backstroke starts with a wedge for the upcoming championship meets, the Stationary Backstroke Start Wedge is a must!
