

A message from your Spectrum Aquatics Team

At Spectrum Aquatics, we are committed to you as our customer. COVID-19 continues to be top of mind for many of you, just as it is for all of us here at Spectrum. Spectrum is continually discussing how to protect the health and well-being of our team members, their families, and our customers.

We wanted to share with you what we are doing to ensure our employees and customers are safe and cared for as this situation continues to evolve.

We have taken the following initiatives and preventive measures:

- Employees are asked to stay at home, whenever they are ill.
- Reassigning employees, where possible, to work remotely to minimize contact with others.
- We have created separation between employees to protect our office and facility environment.
- We have suspended non-essential domestic and international travel.
- We have employed a variety of virtual communication tools to ensure we continue to be responsive to our customers' needs as we work

We strive to be prepared for any supply chain interruption by ensuring:

- Ample stock at all our warehouse locations;
- Dealers that are located both domestically and internationally
- Longer lead times for specialty items
- Understanding customer demands

We maintain high standards for quality and cleanliness. We have increased the frequency of deep cleaning and sanitizing at our manufacturing facility, distribution center, and business office.

We will continue to watch this situation closely and take guidance from the CDC, national, and local authorities. We are taking all the necessary steps to keep our business and employees safe. Our thoughts remain with those directly affected by the virus and those working tirelessly to care for them.

Please don't hesitate to reach out to us with any current or future project needs. Our Sales team is available via telephone at 800.791.8056 or you can reach us via email at info@spectrumproducts.com.
